2520 - SELECTION AND ADOPTION OF INSTRUCTIONAL MATERIALS

The School Board adopts courses of study pursuant to State law and Policy 2220. When adopting courses of study, State law also requires the Board to adopt and provide adequate instructional materials to students enrolled in the District.

“Adequate instructional materials” means a sufficient number of student or site licenses or sets of materials that are available in bound, unbound, kit, or package form and may consist of hard-backed or soft-backed textbooks, electronic content, consumables, learning laboratories, manipulatives, electronic media, and computer courseware or software that serves as the basis for instruction for each student in the core courses of mathematics, language arts, social studies, science, reading, and literature.

Furthermore, Federal law requires the Board to provide accessible instructional materials as specified in a student's Individualized Education Program (IEP). Such accessible instructional materials may be of a type or in a format as specified in the definition of adequate instructional materials in this policy.

As required by State law, instructional materials adopted and used in the District shall be consistent with the goals and objectives in the District’s adopted course of study and with the course descriptions established by State Board rule. The Board is responsible for the content of all instructional materials and any other materials used in a classroom, made available in a school library, or included on a reading list. Upon written request, an individual will be provided access to material or books specified in the written request that are maintained in a District library if such material or books are available for review. The school principal shall arrange for a convenient time to provide such access.

The Superintendent shall develop administrative procedures that set forth a process to involve staff in the review and evaluation of instructional materials. The staff involved in this process shall recommend to the Superintendent for submission to the Board for adoption the instructional materials that address the goals and objectives for adopted courses of study and the course descriptions established by State Board rule. The instructional materials shall be from the State-adopted instructional materials list if there has been a State adoption or from publishers and other resources if there has not been a State adoption.

The Superintendent's procedures shall also prescribe the process for the acquisition, management, use, accountability, and reporting requirements of all instructional materials.

Adoption of Instructional Materials

Prior to submitting a recommendation to the Board regarding the recommended instructional materials, those materials will be accessible for review online for at least twenty (20) calendar days prior to the open publicly noticed meeting at which a public hearing will be held so that the Board can receive comment, if any, about the instructional material under consideration for adoption. The Superintendent shall establish reasonable safeguards against the unauthorized use, reproduction, and distribution of the instructional material under consideration.

Following the public hearing, the Board may act upon the Superintendent's recommendation to adopt the instructional materials.

At an open publicly noticed meeting following the meeting at which the instructional material is adopted, the Board shall consider a recommendation to approve an annual instructional materials plan that identifies any instructional materials to be purchased pursuant to the instructional materials review process described herein.

The Superintendent shall maintain a list of all adopted instructional materials.
Purchase of Instructional Materials

Following adoption by the Board, requisitions shall be issued to purchase current instructional materials from the State-adopted instructional materials list so that each student in kindergarten through grade 12 will have a major tool of instruction in core courses of the subject areas of mathematics, language arts, science, social studies, reading, and literature. Any materials purchased shall be free of pornography and material prohibited under F.S. 847.12, suited to student needs and their ability to comprehend the material presented, and appropriate for the grade level and age group for which the materials are used or made available.

Requisitions shall also be issued to purchase instructional materials that will be the major tool of instruction for subjects in the State Course Code Directory for which the Board has adopted courses of study, but for which there are no materials on the State-adopted instructional materials list.

The Superintendent shall approve these purchases.

In any year in which the total instructional materials allocation for District has not been expended or obligated prior to June 30th, the unobligated amount shall be carried forward and added to the next year's allocation.

The District shall maintain on its website a current list of instructional materials, by grade level, purchased by the District.

Replacement and Purchase of Instructional Materials by Students/Parents

Students shall be held responsible for the cost of replacing any instructional materials lost, destroyed, or unnecessarily damaged. Failure to provide payment for the damage or loss may result in the suspension of the student from participation in extra-curricular activities, or the debt may be satisfied by the student performing community service activities at the school site as determined by the school principal.

A student or his/her parent(s) may purchase a copy of the designated course instructional materials, regardless of format, for the District's purchase price, including shipping, ( ) plus ten percent (10%).

Cost of materials may be charged for materials used in those activities beyond the basic curriculum in which a student elects to participate, particularly in activities where the product becomes the property of the student.

Process for Parents and Residents to Contest Adoption of Instructional Materials

The following individuals may file an objection to the adoption of a specific instructional material:

A. parents of students in the District; and

B. residents of the county.

For purposes of this policy, "resident" means a resident of the county who has maintained his/her residence in Florida for the preceding year, has purchased a home that is occupied by him/her as his/her residence, or has established a domicile in Florida pursuant to F.S. 222.17.

Filing a Petition

A parent or resident must file a petition with the Board within thirty (30) calendar days after the Board's adoption of specific instructional material on a form provided by the Board. The petition form shall be publicly available by visiting any school in person or by accessing the link on the Board's website. The
petition must be signed by the parent or resident, include the required contact information, and state the objection to the instructional material based on the criteria set forth in F.S. 1006.31(2) or 1006.40(3)(d).

Timeframe for Hearing

When the thirty (30) calendar day period following Board adoption of the instructional material in question has expired, the Board will conduct at least one (1) open public hearing before an unbiased and qualified hearing officer for all timely petitions received.

Hearing Officers

Hearing officers are not employees or agents of the District with the exception of any agreement entered into for purposes of conducting the hearings set forth herein. Hearing officers shall be selected annually by the Board from a list of candidates provided by the Superintendent.

[DRAFTING NOTE - F.S. 1006.28 mandates that the hearing provide sufficient procedural protections to allow each petitioner an adequate and fair opportunity to be heard and present evidence to the hearing officer. Importantly, however, F.S. 1006.28 is relatively silent as to how the hearing must be conducted or what is meant by "an adequate and fair opportunity to be heard and present evidence." In the "Procedures for Hearings" section that follows this drafting note, we have proposed procedures that we believe meet the intent of F.S. 1006.28. If the Board does not desire to adopt Neola's proposed Procedures for Hearings, we strongly encourage you to consult with board legal counsel to develop hearing procedures that comply with the intent and requirements of F.S. 1006.28.]

Procedures for Hearings

Petitioners will have an adequate and fair opportunity to be heard and present evidence to the hearing officer. Hearings shall be conducted as follows:

A. The petitioner may make an opening statement.

B. The District's representative may make an opening statement.

C. The petitioner may present evidence (including documents and testimony from witnesses) that instructional material does not meet the criteria of F.S. 1006.31(2) or 1006.40(3)(d) if it was selected for use in a course or otherwise made available to students in the School District but was not subject to the public notice, review, comment, and hearing procedures under F.S. 1006.283(2)(b)8., 9., and 11.

D. The District representative may present evidence (including documents and testimony from witnesses) that the instructional material does meet the criteria of F.S. 1006.31(2) or 1006.40(3)(d) if it was selected for use in a course or otherwise made available to students in the School District but was not subject to the public notice, review, comment, and hearing procedures under F.S. 1006.283(2)(b)8., 9., and 11.

E. The petitioner may make a closing statement.

F. The District representative may make a closing statement.
Within fourteen (14) days of the date of the hearing, the hearing officer shall submit a recommended order to the Board. The Board shall consider the recommended order and enter a final order at a publicly noticed Board meeting. If the petitioner proves that instructional material does not meet the criteria required under F.S. 1006.28, or contains prohibited material under that statute, it shall be removed in accordance with Florida law. The Board’s decision is final and not subject to further petition or review.

Hearings under this policy are not subject to the provisions of F.S. Chapter 120.

**Free School-Related Instructional Materials**

Free instructional materials may be accepted for classroom and school purposes under conditions that meet all the following criteria:

A. The initiative for securing the materials should be of the type that teachers seek rather than materials forwarded to them to promote the interests of an outside agency.

B. The materials should fill a legitimate purpose of the school curriculum.

C. The advertising feature of the materials should be minimized.

D. Educational films should contain a minimum amount of commercial advertising.

A. Instructional Materials – Generally:

1. The School Board shall select and provide adequate instructional materials, as recommended by the Superintendent, that serve as the basis for instruction for each student in the core subject areas of mathematics, language arts, social studies, science, reading, and literature. The Board is responsible for the content of all instructional materials and any other materials used in a classroom, made available in a school library, or included on a reading list whether adopted and purchased from the state-adopted instructional materials list, adopted and purchased through the District instructional materials program or otherwise purchased or made available in the classroom. Instructional materials and resources shall be provided in a variety of formats that are appropriate, timely, and essential to the attainment of specified educational objectives and are free of bias, stereotypes, distortions, and prejudices.

2. "Adequate instructional materials" means a sufficient number of student or site licenses or sets of materials and have intellectual content that by design serve as the major tool for assisting in the instruction of a subject or course. These items may be provided in a variety of forms, bound, unbound, kit, or package form and may consist of hardbacked or softbacked textbooks, electronic content, consumables, learning laboratories, manipulatives, electronic media, and computer courseware or software. Instructional materials, including textbooks, educational media (library media print, nonprint, and electronic resources), computer software, digital content, videotapes. The Board must (a) adopt instructional materials selected from the state-approved materials according to the state adoption cycles, (b) adopt instructional materials pursuant to a Board instructional materials review program prescribed by this policy, or (c) a combination of both.
B. State-Adopted Instructional Materials

The Florida Commissioner of Education shall determine annually the areas in which instructional materials shall be submitted for adoption and evaluate them pursuant to law. The Superintendent shall assign responsibilities for the District’s participation in the State adoption of instructional materials, determine areas of the curriculum in which State adoption of instructional materials is needed and communicate those needs to the Commissioner of Education, and establish procedures for the requisition, purchase, receipt, storage, distribution, use, conservation, maintenance of records and reports, and management practices, and property accountability concerning instructional materials. The duties and responsibilities include keeping adequate records and accounts for all financial transactions for funds collected pursuant to F.S. 1006.28(3)(a). Such records and account shall be a component of the educational service delivery scope of the District’s best financial management practices review under F.S. 1008.35.

C. District-Adopted Instructional Materials

1. The Board shall implement its own instructional materials review and selection program for District-adopted instructional materials that are not State-adopted. Procedures shall be established, which are incorporated by reference in and made a part of this policy, to provide for evaluation and selection of District-adopted instructional materials.

2. These procedures shall include processes, criteria, and requirements for the following:
   a. selection of reviewers, one (1) or more of whom must be a parent/legal guardian with a child enrolled in a District public school,
   b. review of instructional materials,
   c. selection of materials, including a thorough review of curriculum content, and
   d. reviewer recommendations.

3. The procedures must also identify, by subject area, a review cycle for instructional materials, specify the qualifications of reviewers, establish a process that certifies the accuracy of instructional materials, and comply with all other requirements in F.S. 1006.283(2).

D. Evaluation and Selection of Instructional Materials (State-Adopted and Non-State Adopted Instructional Materials)

1. Pursuant to F.S. 1006.34, in the selection of instructional materials, library media, and other reading material used in the public school system, the standards used to determine the propriety of the material includes:
   a. The age of the students who normally could be expected to have access to the material;-
   b. The educational purpose to be served by the material. Priority shall be given to the selection of materials that align with the Next Generation Sunshine State Standards as provided for in F.S. 1003.41, and include the instructional objectives contained within the curriculum frameworks for career and technical education and adult and adult general education adopted by rule of the State Board of Education under F.S. 1004.92;-

c. The degree to which the material would be supplemented and explained by mature classroom instruction as part of a normal classroom instructional program; and

d. The consideration of the broad racial, ethnic, socioeconomic, and cultural diversity of the students of this State.

2. Any instructional material containing pornography or otherwise prohibited by F.S. 847.012, may not be used or made available within any public school.

3. If the Board finds that an instructional material does not meet the criteria or that any other material contains prohibited content herein, the District shall discontinue use of the material for any grade level or age group for which such use is inappropriate or unsuitable.

E. Instructional Materials - Adoption and Purchase

1. Adoption of Instructional Materials

   a. The appropriate content specialist or resource teacher, under the Assistant Superintendent for Leading and Learning, shall appoint committees to evaluate materials for District adoption and obtain samples, train committees, and publicize adoptions. These committees shall evaluate instructional materials which have not been used previously in the District to determine their appropriateness and usability in the schools before such materials are requisitioned. Evaluations will consider the Florida Standards and District Strategic Directions. Normally, only those instructional materials which have been District recommended and District adopted shall be requisitioned for use in this school system. By March 31 of each year, the District will notify the Department of Education of the District’s plan for purchasing State adopted materials as required by State statute.

   b. The following procedures for the adoption of instructional materials apply only to those instructional materials that serve as the major content tool and basis for instruction for each student in the core subject areas.

      ii. Public notice of the materials being considered for adoption shall specifically list the materials and how they can be accessed.

      iii. The Board shall conduct an open, noticed public hearing to receive comment on recommended materials prior to adoption.

      iv. The Board shall conduct an open, noticed public meeting, on a date other than the date of the public hearing, to approve an annual instructional materials plan identifying instructional materials that will be purchased. See F.S.1006.283.

2. Purchase of Instructional Materials

The hearing officer shall be appointed by the Superintendent and shall be neither an employee nor agent of the Board.

4. The hearing before the hearing officer is not subject to the provisions of F.S. Chapter 120 but the hearing officer shall provide sufficient procedural protections to allow each petitioner an adequate and fair opportunity to be heard and present evidence to the hearing officer. The hearing officer will present his or her findings and recommendation in writing to the Board.
5. Within thirty (30) days after the Board receives the hearing officer’s findings and recommendation, the Board, at a public meeting, will consider the petition, the hearing officer’s findings and recommendation, and any evidence presented to the hearing officer, and make a final decision on the petition.

A. Instructional Materials – Generally:

1. The School Board shall select and provide adequate instructional materials, as recommended by the Superintendent, that serve as the basis for instruction for each student in the core subject areas of mathematics, language arts, social studies, science, reading, and literature. The Board is responsible for the content of all instructional materials and any other materials used in a classroom, made available in a school library, or included on a reading list whether adopted and purchased from the state-adopted instructional materials list, adopted and purchased through the District instructional materials program or otherwise purchased or made available in the classroom. Instructional materials and resources shall be provided in a variety of formats that are appropriate, timely, and essential to the attainment of specified educational objectives and are free of bias, stereotypes, distortions, and prejudices.

2. "Adequate instructional materials" means a sufficient number of student or site licenses or sets of materials and have intellectual content that by design serve as the major tool for assisting in the instruction of a subject or course. These items may be provided in a variety of forms, bound, unbound, kit, or package form and may consist of hardbacked or softbacked textbooks, electronic content, consumables, learning laboratories, manipulatives, electronic media, and computer courseware or software. Instructional materials, including textbooks, educational media (library media print, nonprint, and electronic resources), computer software, digital content, videotapes. The Board must (a) adopt instructional materials selected from the state-approved materials according to the state adoption cycles, (b) adopt instructional materials pursuant to a Board instructional materials review program prescribed by this policy, or (c) a combination of both.

B. State-Adopted Instructional Materials

The Florida Commissioner of Education shall determine annually the areas in which instructional materials shall be submitted for adoption and evaluate them pursuant to law. The Superintendent shall assign responsibilities for the District's participation in the State adoption of instructional materials, determine areas of the curriculum in which State adoption of instructional materials is needed and communicate those needs to the Commissioner of Education, and establish procedures for the requisition, purchase, receipt, storage, distribution, use, conservation, maintenance of records and reports, and management practices, and property accountability concerning instructional materials. The duties and responsibilities include keeping adequate records and accounts for all financial transactions for funds collected pursuant to F.S. 1006.28(3)(a). Such records and account shall be a component of the educational service delivery scope of the District’s best financial management practices review under F.S. 1008.35.

C. District-Adopted Instructional Materials

1. The Board shall implement its own instructional materials review and selection program for District-adopted instructional materials that are not State-adopted. Procedures shall be established, which are incorporated by reference in and made a part of this policy, to provide for evaluation and selection of District-adopted instructional materials.

2. These procedures shall include processes, criteria, and requirements for the following:

   a. selection of reviewers, one (1) or more of whom must be a parent/legal guardian with a child enrolled in a District public school,

   b. review of instructional materials,
c. selection of materials, including a thorough review of curriculum content, and

d. reviewer recommendations.

3. The procedures must also identify, by subject area, a review cycle for instructional materials, specify the qualifications of reviewers, establish a process that certifies the accuracy of instructional materials, and comply with all other requirements in F.S. 1006.283(2).

D. Evaluation and Selection of Instructional Materials (State-Adopted and Non-State Adopted Instructional Materials)

1. Pursuant to F.S. 1006.34, in the selection of instructional materials, library media, and other reading material used in the public school system, the standards used to determine the propriety of the material includes:

   a. The age of the students who normally could be expected to have access to the material;

   b. The educational purpose to be served by the material. Priority shall be given to the selection of materials that align with the Next Generation Sunshine State Standards as provided for in F.S. 1003.41, and include the instructional objectives contained within the curriculum frameworks for career and technical education and adult and adult general education adopted by rule of the State Board of Education under F.S. 1004.92;

   c. The degree to which the material would be supplemented and explained by mature classroom instruction as part of a normal classroom instructional program; and

   d. The consideration of the broad racial, ethnic, socioeconomic, and cultural diversity of the students of this State.

2. Any instructional material containing pornography or otherwise prohibited by F.S. 847.012, may not be used or made available within any public school.

3. If the Board finds that an instructional material does not meet the criteria or that any other material contains prohibited content herein, the District shall discontinue use of the material for any grade level or age group for which such use is inappropriate or unsuitable.

E. Instructional Materials - Adoption and Purchase

1. Adoption of Instructional Materials

   a. The appropriate content specialist or resource teacher, under the Assistant Superintendent for Leading and Learning, shall appoint committees to evaluate materials for District adoption and obtain samples, train committees, and publicize adoptions. These committees shall evaluate instructional materials which have not been used previously in the District to determine their appropriateness and usability in the schools before such materials are requisitioned. Evaluations will consider the Florida Standards and District Strategic Directions. Normally, only those instructional materials which have been District recommended and District adopted shall be requisitioned for use in this school system. By March 31 of each year, the District will notify the Department of Education of the District’s plan for purchasing State adopted materials as required by State statute.

   b. The following procedures for the adoption of instructional materials apply only to those instructional materials that serve as the major content tool and basis for instruction for each student in the core subject areas.

2. Purchase of Instructional Materials

   a. Following adoption by the Board, requisitions shall be issued to purchase current instructional materials from the State-adopted instructional materials list so that each student in kindergarten through grade 12 will have a major tool of instruction in core courses of the subject areas of mathematics, language arts, science, social studies, reading, and literature. Any materials purchased shall be free of pornography and material prohibited under F.S. 847.012, suited to student needs and their ability to comprehend the material presented, and appropriate for the grade level and age group for which the materials are used or made available.

   b. Requisitions shall also be issued to purchase instructional materials that will be the major tool of instruction for subjects in the State Course Code Directory for which the Board has adopted courses of study, but for which there are no materials on the State-adopted instructional materials list.

The hearing officer shall be appointed by the Superintendent and shall be neither an employee nor agent of the Board.

4. The hearing before the hearing officer is not subject to the provisions of F.S. Chapter 120 but the hearing officer shall provide sufficient procedural protections to allow each petitioner an adequate and fair opportunity to be heard and present evidence to the hearing officer. The hearing officer will present his or her findings and recommendation in writing to the Board.
