

TAKE A STAND AGAINST BULLYING

Anti-Bullying Projects

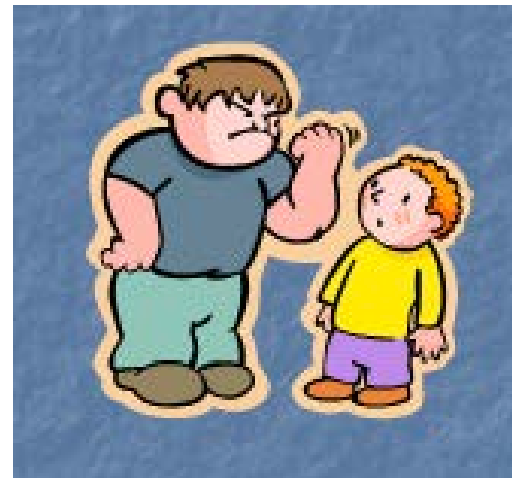

In Brevard County

What Is Normal Conflict Versus Bullying?

- Normal conflict happens with most kids.
- Normal conflict does not last because the kids eventually work it out. Bullying is repetitive and doesn't stop.
- In normal conflict, the power is balanced. In bullying, there is an imbalance in power.

Definition Of Bullying/Harassment

Bullying/harassment means physically, verbally, or emotionally hurting someone on purpose. It is unwanted and repeated.

Youth Leadership Training

On September 18-20 students from each middle and high school in Brevard County were invited to a youth leadership training. The students were trained by the Massachusetts Aggression Replacement Center on how to start an anti-bullying club at their school to address bullying.

Youth Leadership Training

They were tasked with writing what problems they see at school and an action plan on how to start a school club and project at their school to address the issues they listed.

Each school sent four students that expressed leadership among their peers and one faculty advisor to supervise the club and projects created by the students.

Other Projects

Schools are also doing many other projects too, that weren't photographed. Some of them include rallies, mix-it-up day, random acts of kindness day, take a shot against bullying (basketball activity), and a lot more. Many schools make announcements on their news or morning announcements.
